DETAILED ACTION

Election/Restrictions

1. The restriction requirement sent out on May 5, 2005 addresses claims 1-30 which were canceled with a pre-amendment dated April 19, 2004. Therefore the restriction is hereby withdrawn and claims 31-50 are addressed below.

Allowable Subject Matter

2. Claims 31-50 are allowed.

2. The following is an examiner's statement of reasons for allowance: Upon review of the application filed on 4/19/2004, the art of record does not disclose or make obvious a firing pin system comprising: a bolt having a passage; a striker in said passage; and a first and a second firing pin wherein the first firing pin is aligned along the longitudinal axis and the second firing pin is offset from the longitudinal axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cumming (2,804,804) teaches a firing pin system with a first pin along a longitudinal axis and a second firing pin offset from the longitudinal axis.
